II. Mining and Reclamation

1. Was the mine active during the past year? Yes ☒ No ☐
2. If active, how much ore or mineral was mined? core samples from two  
drill holes.

3. How much **additional acreage** was disturbed during the past year? nominal
4. Briefly describe any new or additional surface disturbances that occurred during the past year. This description should include the type of work performed, and volume of material moved.

On August 28, 1992, drilling equipment was moved into the subject area. Drilling was undertaken and core samples obtained through to early September, 1992.

5. How much acreage was **reclaimed** during the past year? All distributed areas.
6. Briefly describe the reclamation work performed during the past year. This description should include methods employed, and an evaluation of the results.

The drill holes were backfilled to 10 feet and plugged with concrete pursuant to BLM Plan of Operations (UTU-67809).

7. What is the **total disturbed acreage** at years end? none

8. Briefly summarize any mining and/or reclamation plans for the upcoming year.

We plan similar core sample operations for the upcoming year.

**NOTE:** Section III., "Additional Information" applies only to large mining operations.

### III. Additional Information

1. An updated surface facilities map should be attached if there have been significant changes since the previous map was submitted.
2. Any monitoring results or other reports that are required under the terms of the approved notice of intention should also be attached.
